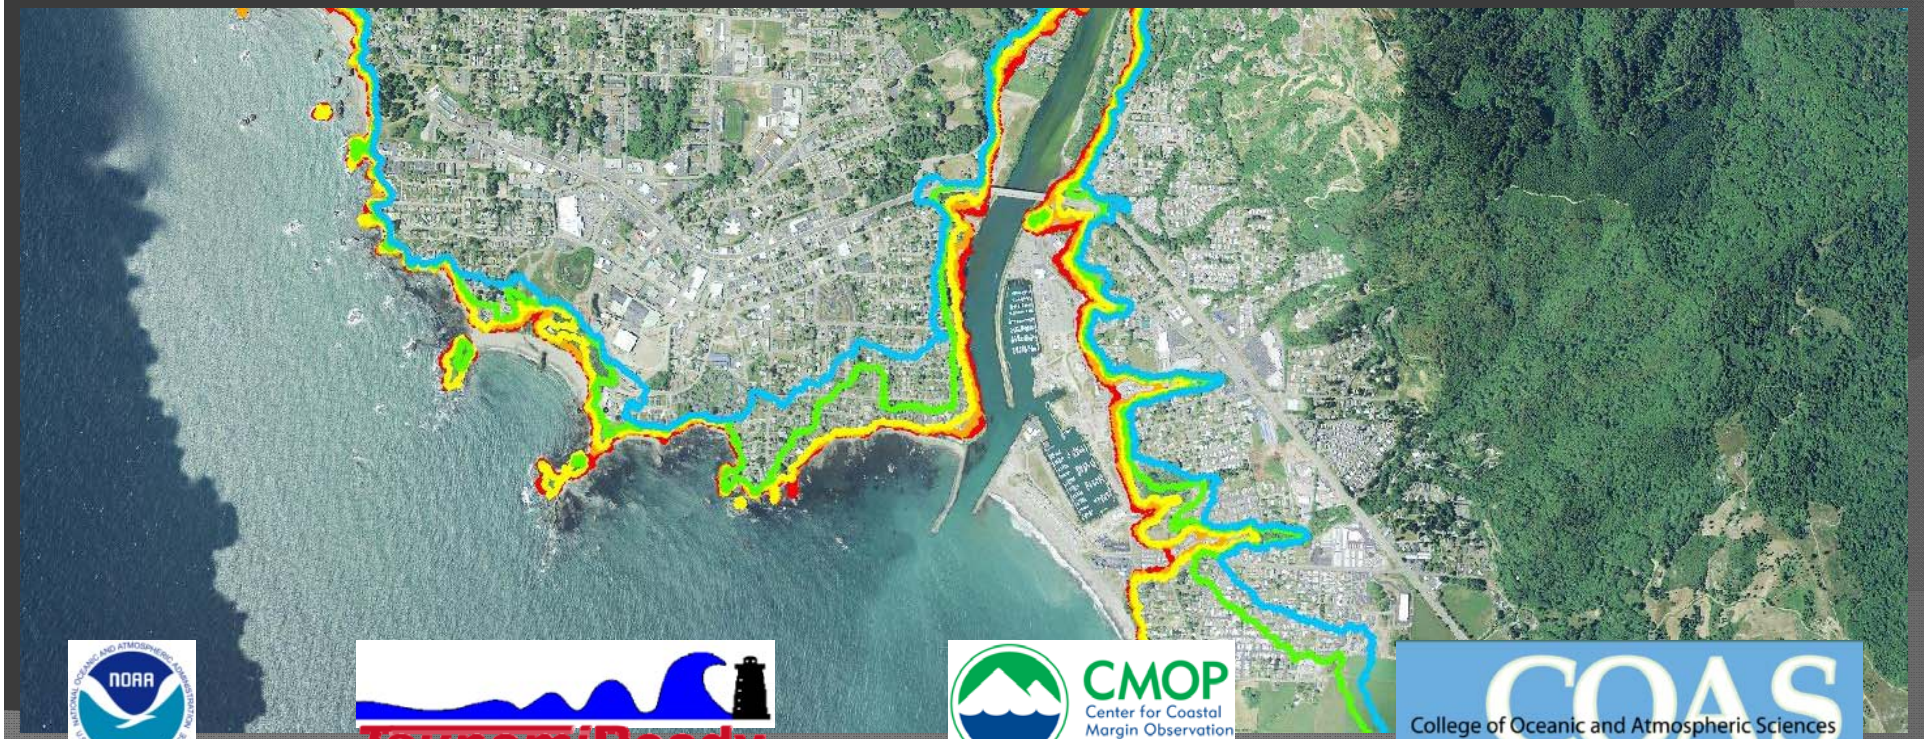
# 2011 Annual NTHMP Meeting

## Oregon Report

1 February 2011
Portland, Oregon

**Rob Witter**
Oregon Department of Geology

**Althea Turner**
Oregon Emergency Management



# Oregon FY09–FY11 Funding

## FY08 Grant – complete

- Total award: $253,910

## FY09 Grant – nearly complete

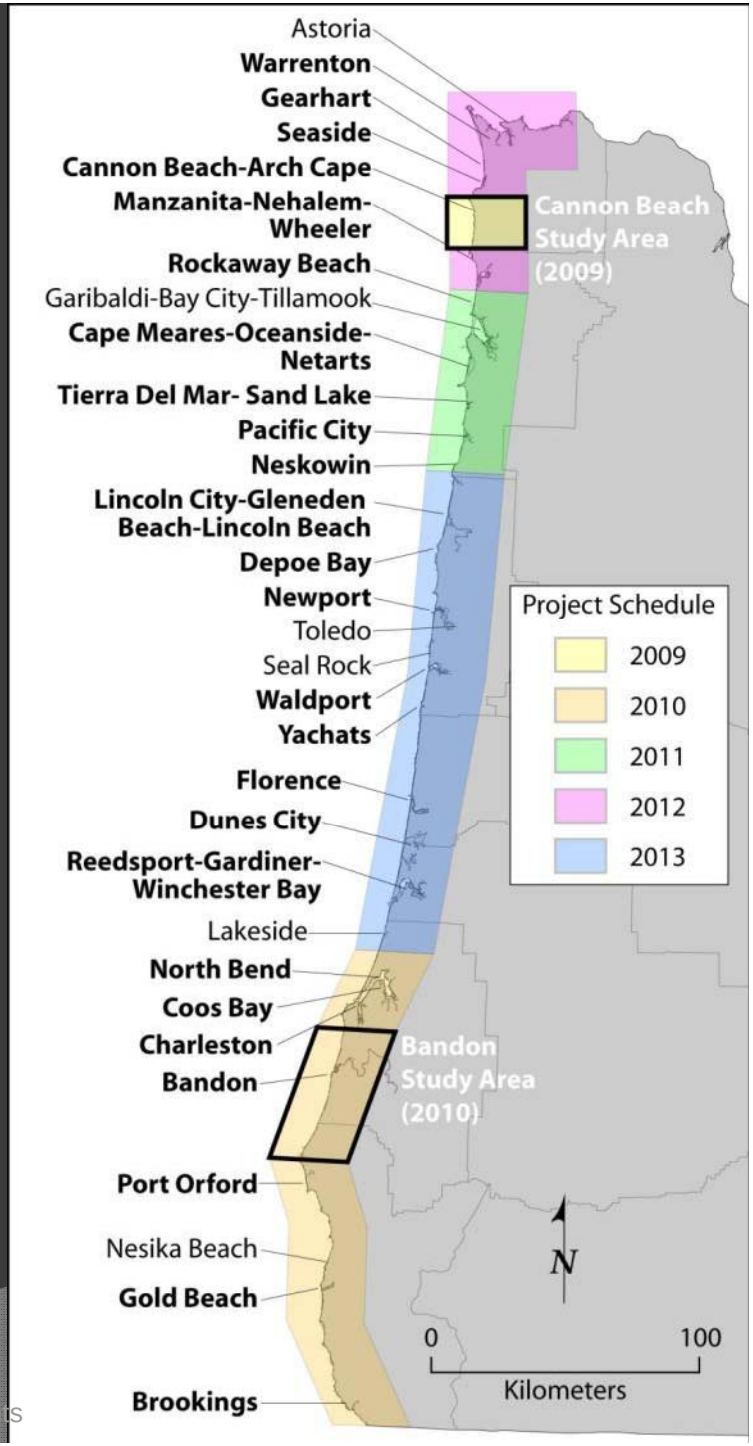
- Total award: $710,992

## FY10 Grant – underway

- Total award: $718,734

## FY11 Grant – looking ahead

- Requested: $726,645



# Southern Oregon Tsunami Inundation Modeling

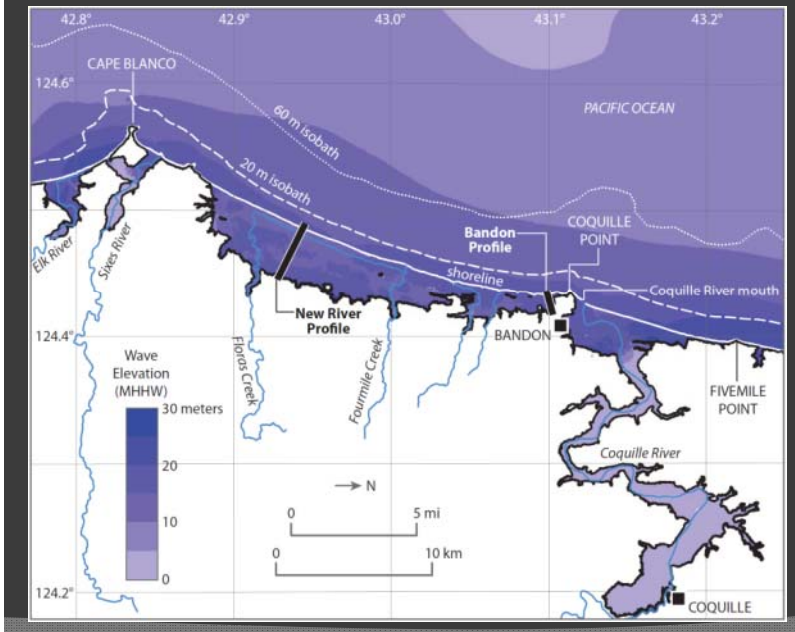
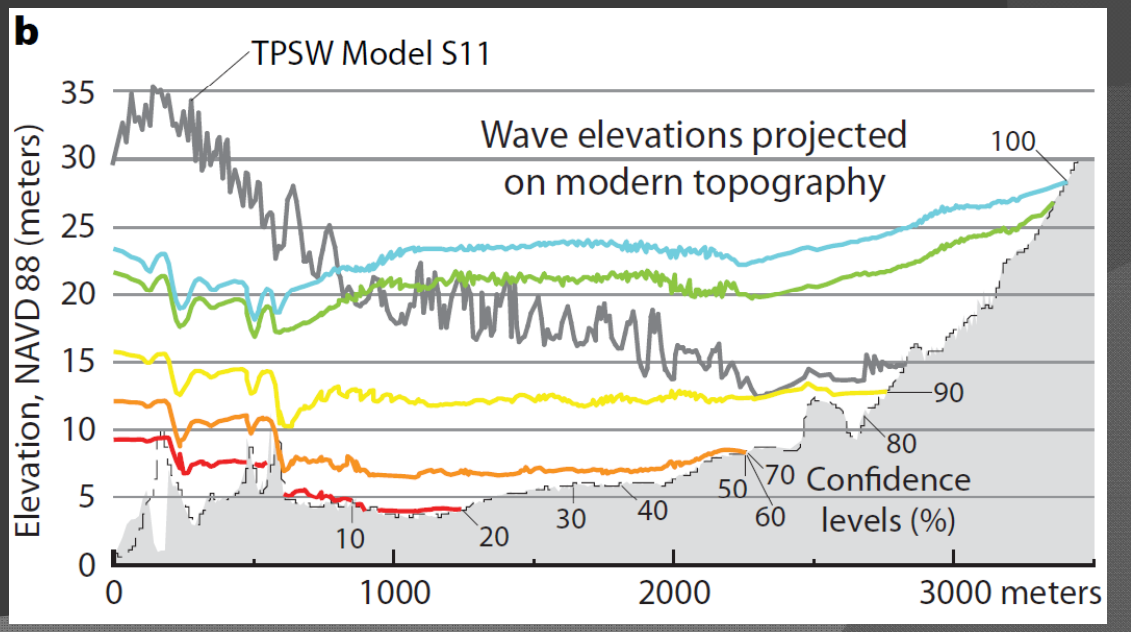
# Oregon FY09 NTHMP Grant Accomplishments

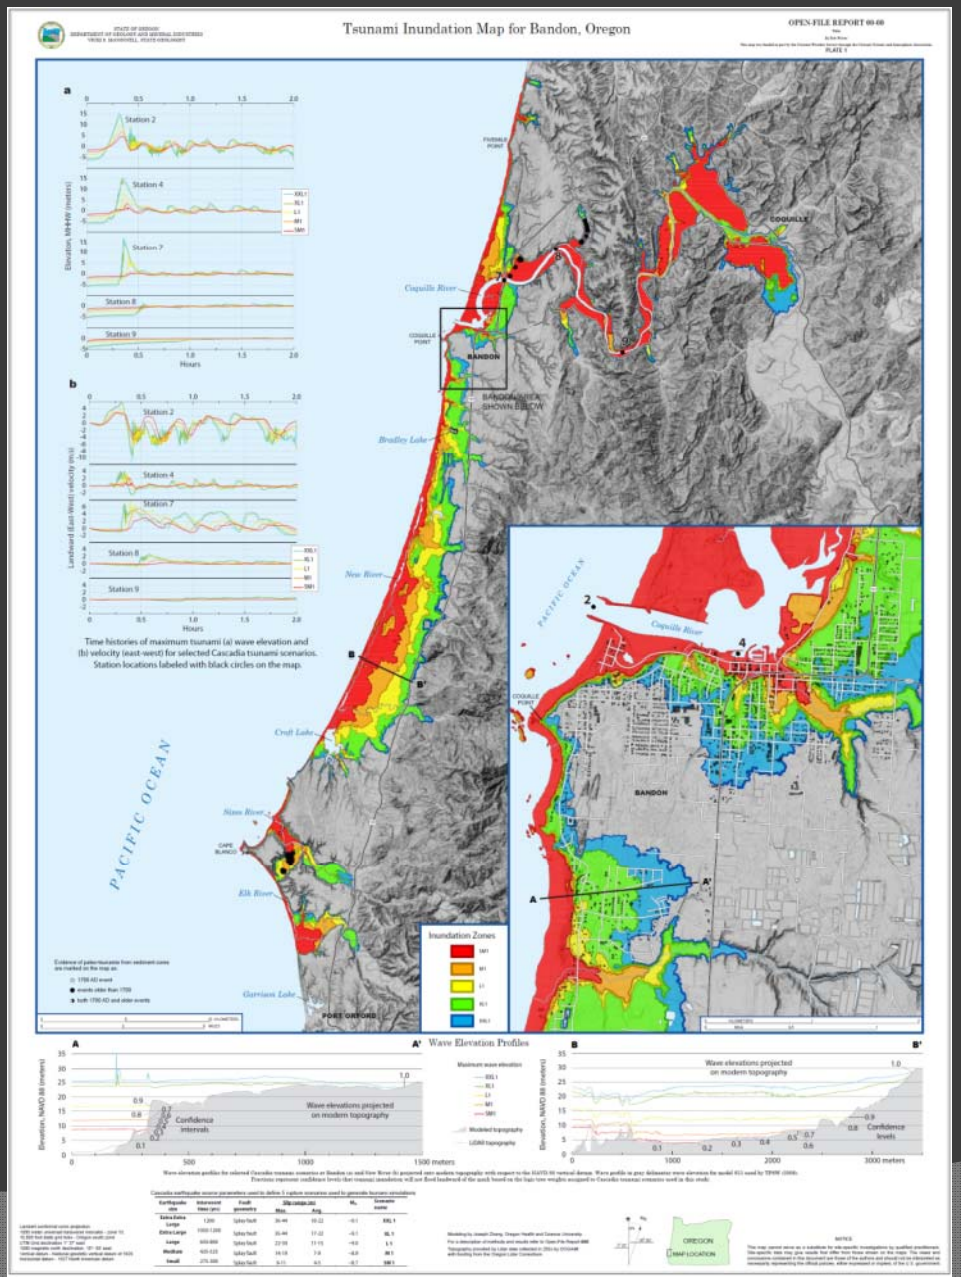
## Tsunami Mapping & Modeling, Oregon's south coast

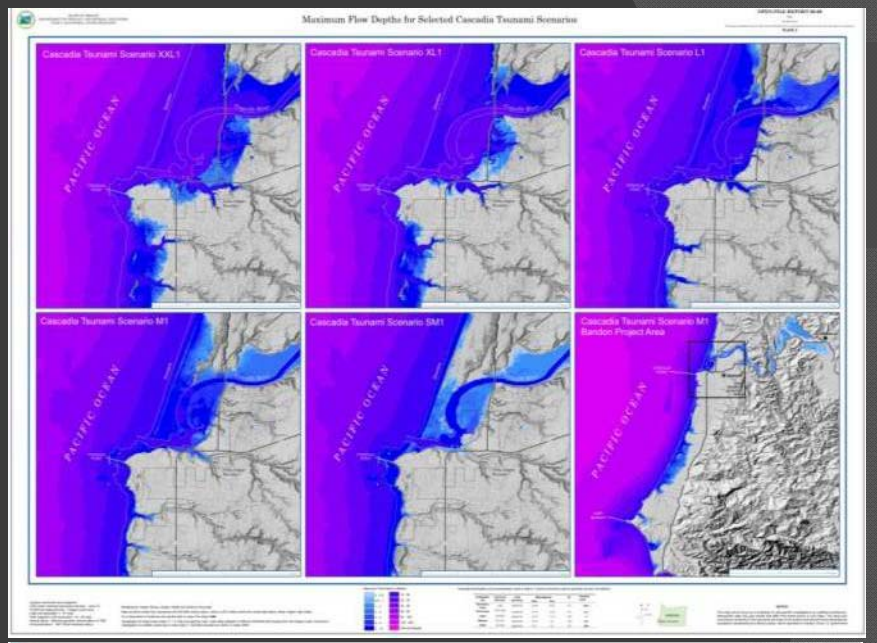
- Bandon inundation map and report in review
- Modeling complete from Coos Bay to OR-CA border
- Southern Oregon tsunami deposits database compiled

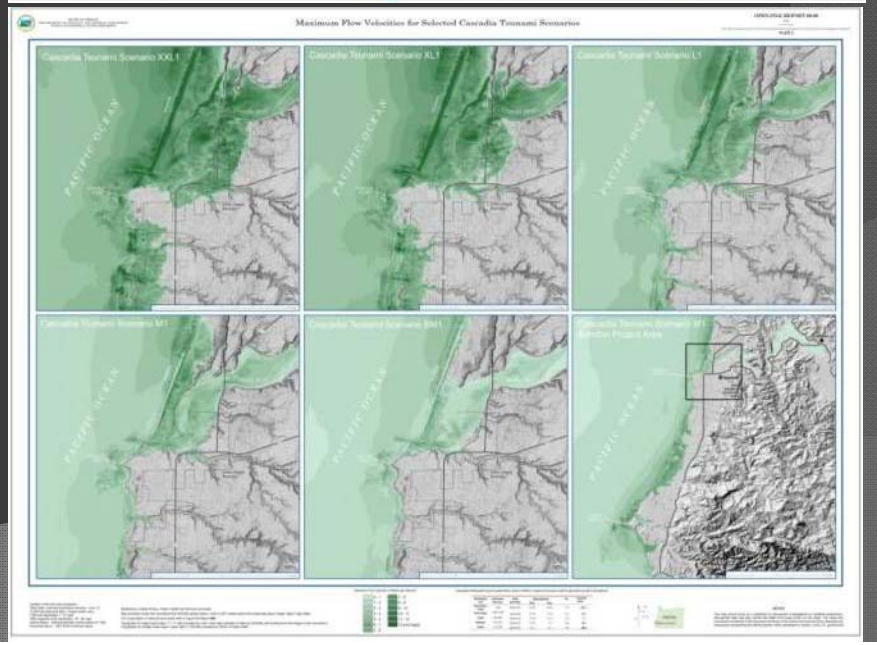




# Bandon Tsunami Inundation Maps



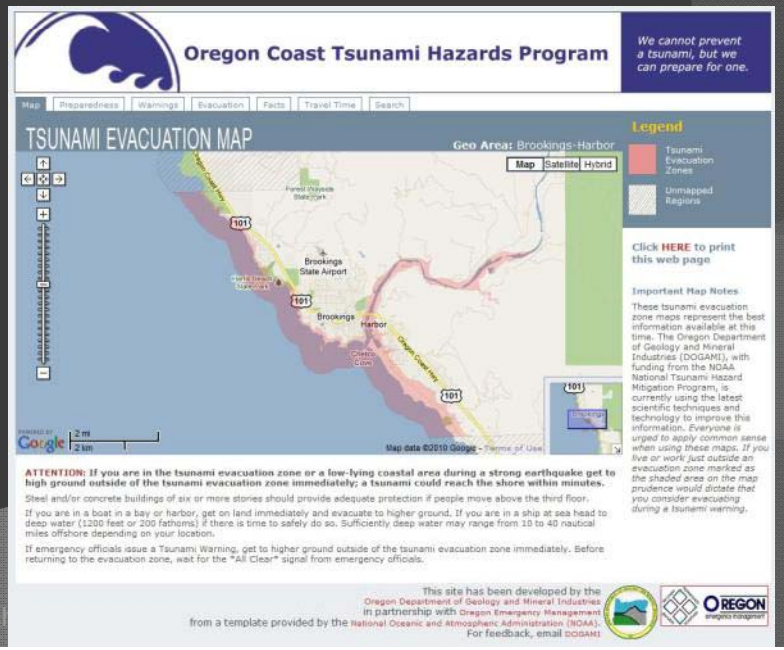




# Oregon FY09 NTHMP Grant Accomplishments

## Tsunami Mitigation and Education

- 6 southern Oregon tsunami evacuation maps
- 3 more evacuation maps by March 2011
- Updating online tsunami evacuation map viewer
- Launched Oregon Tsunami Information Clearinghouse *www.oregontsunami.org*
- Advised City of Bandon on new evacuation map
- Oregon *TsuTube* channel launched



# New Bandon Evacuation Map

- Adopts Cannon Beach design
- Two evacuation zones
  - Local tsunami (yellow)
  - Distant tsunami (orange)
- English/Spanish
- Checked for color blind
- Landmarks featured
- Assembly areas
- Runup elevations
- Standardized symbols
- LiDAR base map

## Oregon's *TsunamiReady, TsunamiPrepared* Program

- Outreach activities targeted in 8 communities
- Outreach coordinator advises 3 community organizers
- Florence, Oregon designated *TsunamiReady*, Aug. 2010
- Tsunami evacuation drills in 4 communities

***Priorities for TsunamiReady, TsunamiPrepared***

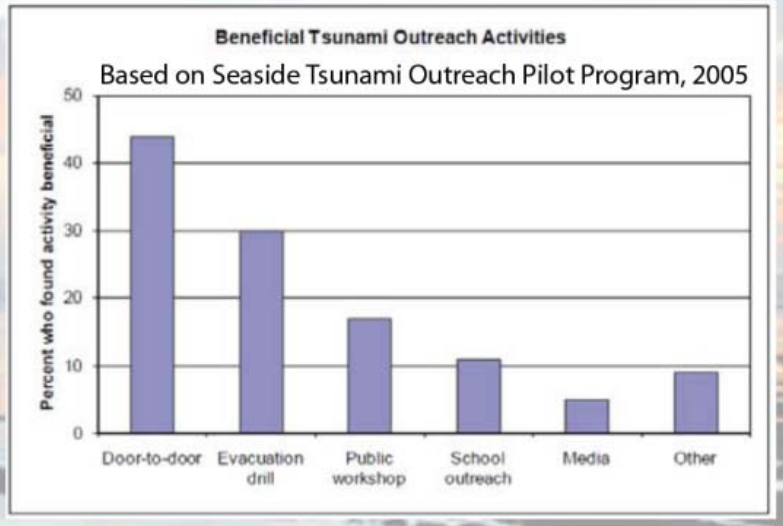
***1. Door-to-door education***

***2. Tsunami evacuation drill***

***3. Outreach to K-12 schools***

***4. Media events***

***5. Workshops targeting key audiences***
***lodging and business industry, elected officials, community managers***



# Community Outreach (FY 09)

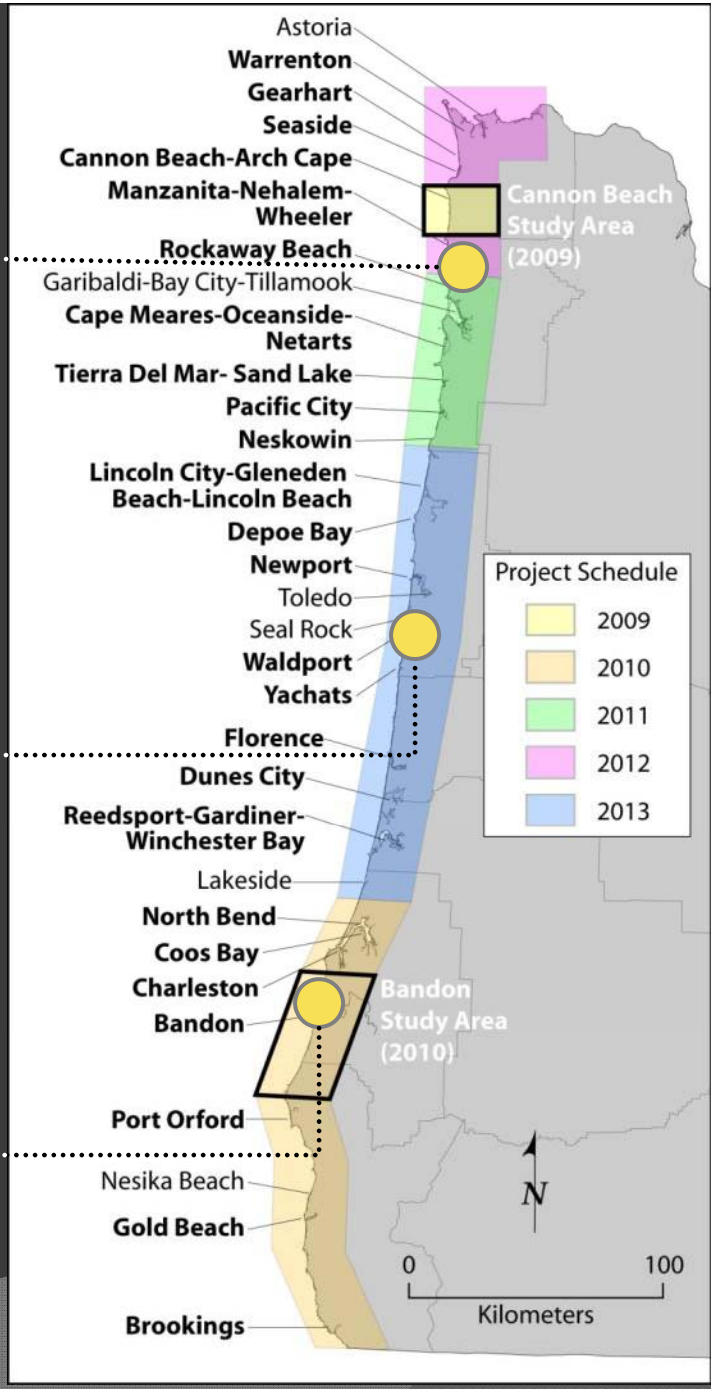
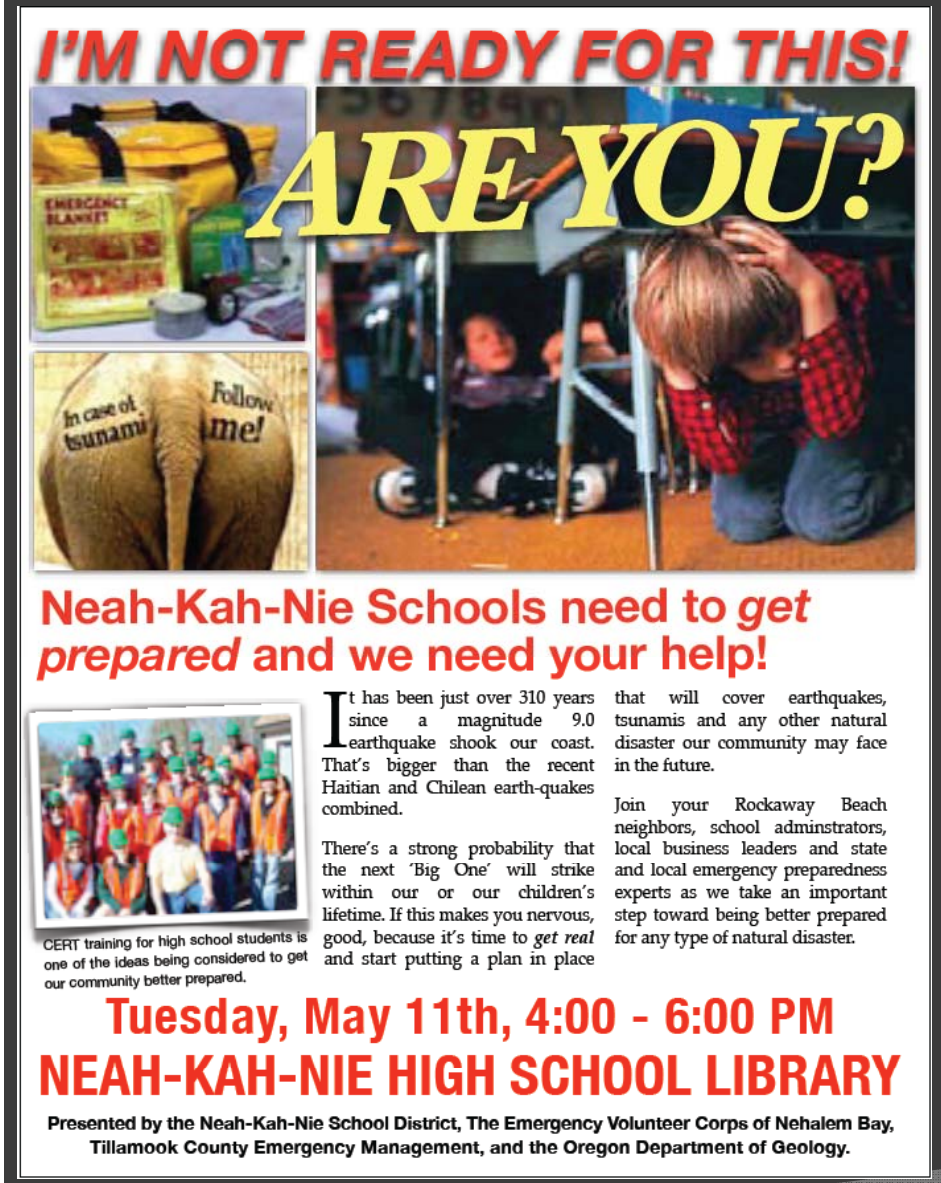
  - Rockaway Beach
- Central Coast
  - Seal Rock
  - Waldport
  - Yachats
- South Coast
  - Bandon



# Education Targeting Youth

# Schools, Drills, Media Events



## I'M NOT READY FOR THIS!

## ARE YOU?

## Neah-Kah-Nie Schools need to *get prepared* and we need your help!

CERT training for high school students is one of the ideas being considered to get our community better prepared.

It has been just over 310 years since a magnitude 9.0 earthquake shook our coast. That's bigger than the recent Haitian and Chilean earth-quakes combined.

There's a strong probability that the next 'Big One' will strike within our or our children's lifetime. If this makes you nervous, good, because it's time to *get real* and start putting a plan in place that will cover earthquakes, tsunamis and any other natural disaster our community may face in the future.

Join your Rockaway Beach neighbors, school adminstrators, local business leaders and state and local emergency preparedness experts as we take an important step toward being better prepared for any type of natural disaster.

## Tuesday, May 11th, 4:00 - 6:00 PM
## NEAH-KAH-NIE HIGH SCHOOL LIBRARY

**Presented by the Neah-Kah-Nie School District, The Emergency Volunteer Corps of Nehalem Bay, Tillamook County Emergency Management, and the Oregon Department of Geology.**

## SPECIAL SERIES: Washed Away Event Day

0

Share

*By KATU News*

STORY

*Story Published: May 24, 2010 at 10:00 AM PST* | *Story Updated: May 25, 2010 at 12:16 AM PST*

PORTLAND, Ore. – Memorial Day is one week away, so with swimming pools opening for the summer that means, for many, it's time to think about going to the coast.

Now that this past week's cold coastal winds have blown through the area, as part of KATU's "Washed Away" event day we're bringing you tips to staying safe on the Pacific Northwest shores. In this series you'll find out how to learn to swim, how to tell if a tsunami is on its way even before the sirens, what to do if you're caught in a sneaker wave and where to learn CPR. You'll also see in-the-sea footage of off-shore rescues and underwater rip currents.

# Oregon FY09 NTHMP Grant

## Issues

- Unstructured grids (1.5 – 2 million nodes) used for tsunami modeling required more time to construct than anticipated
- Establishing Inter-governmental Agreement with OHSU for tsunami modeling for the southern Oregon coast project involved delays
- Time was lost due to hardware failure, data storage problems, and software licensing needs related to modeling. These issues are now resolved.

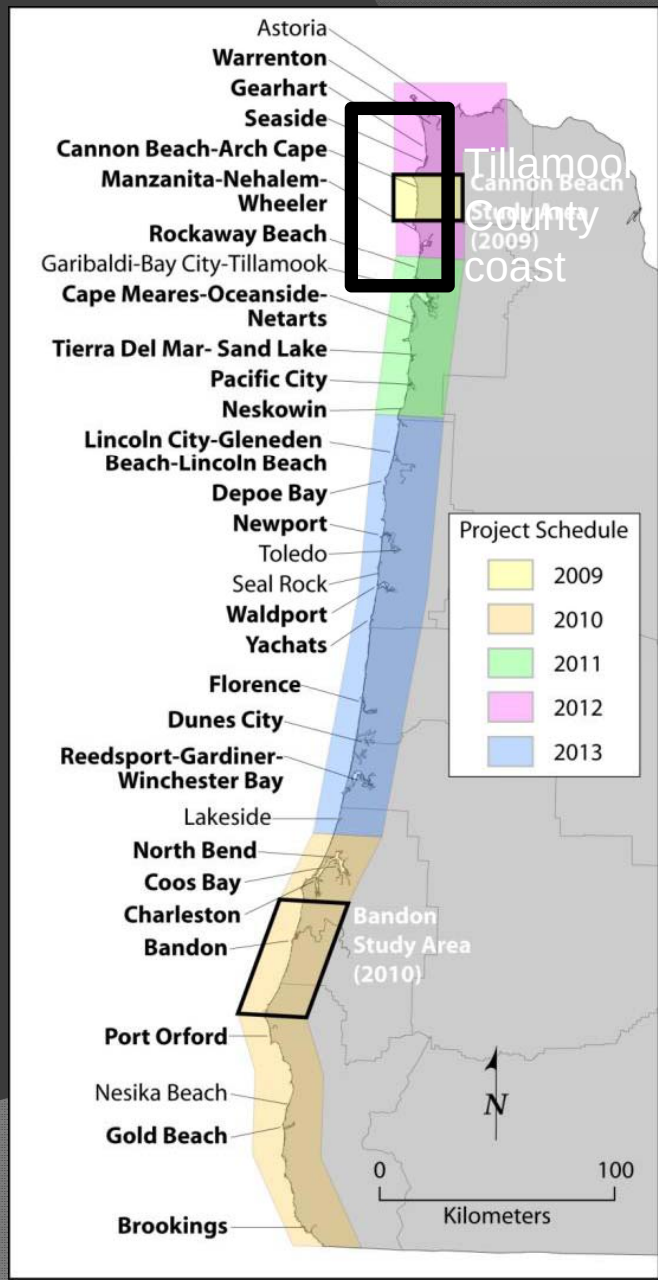
## Resolutions

- Grids were divided into manageable extents.
- Contract negotiations resolved .
- Hardware / software will be acquired through next contract.

# Oregon FY10 NTHMP Grant Accomplishments

## Tsunami Mapping & Modeling, Tillamook County

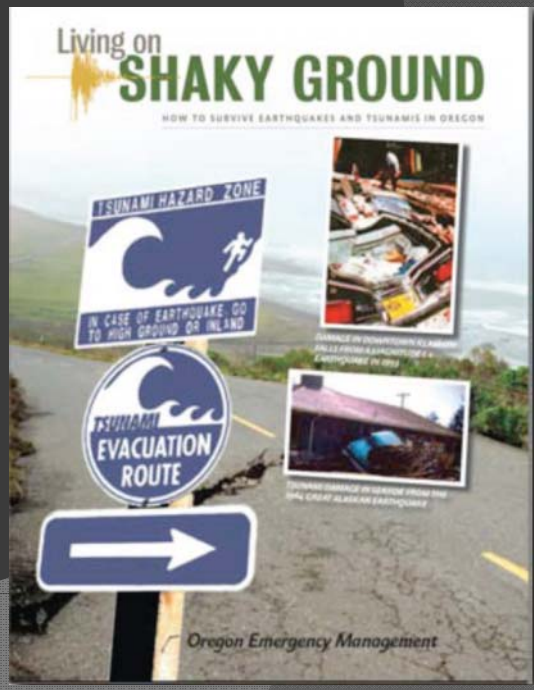
- Two tsunami grids for Tillamook County in development
- Sources include 5 Cascadia and 2 Alaska scenarios
- Tsunami modeling planned for spring 2011



# Oregon FY10 NTHMP Grant Accomplishments

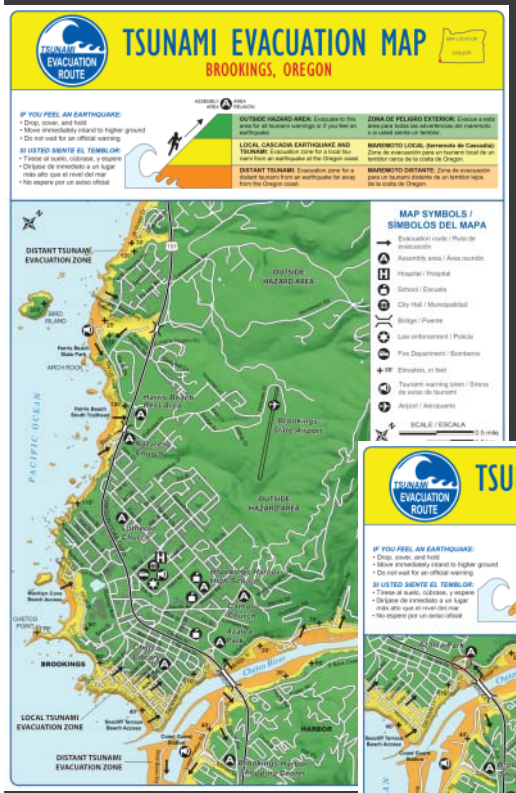
## Tsunami Mitigation and Education

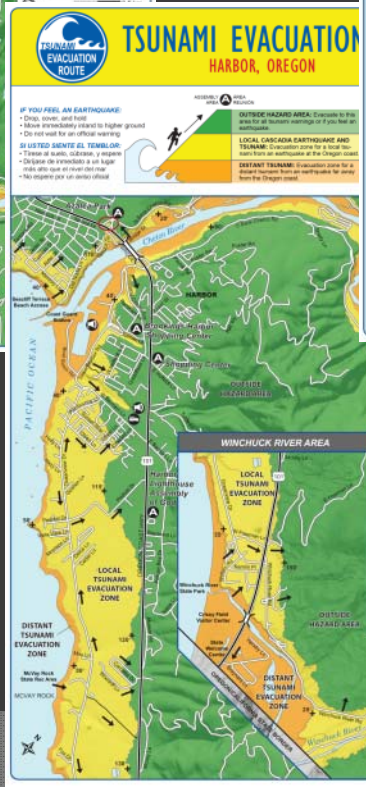
- 11 tsunami evacuation maps planned
- Updating online tsunami evacuation map viewer
- High school projects to develop PSAs and tsunami preparedness videos for *TsuTube* channel
- Presentations to Red Cross, FEMA, Pacific Power
- Living in Earthquake Country released

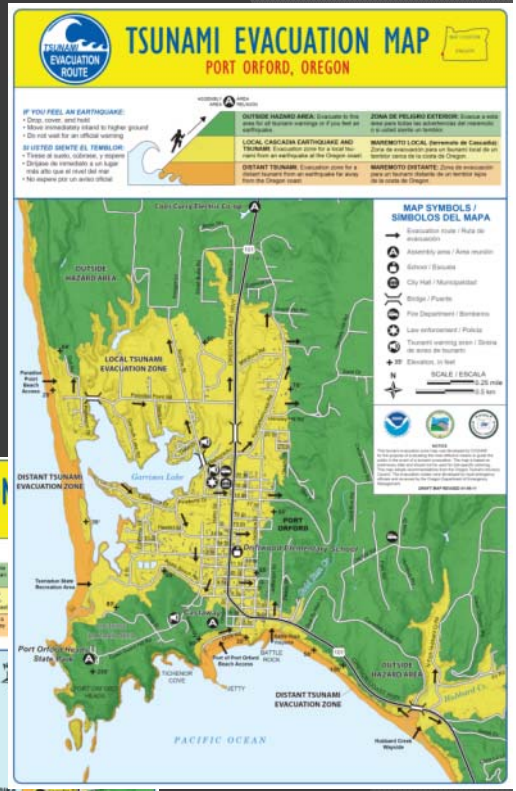


# Five New Evacuation Maps

## … and more coming!





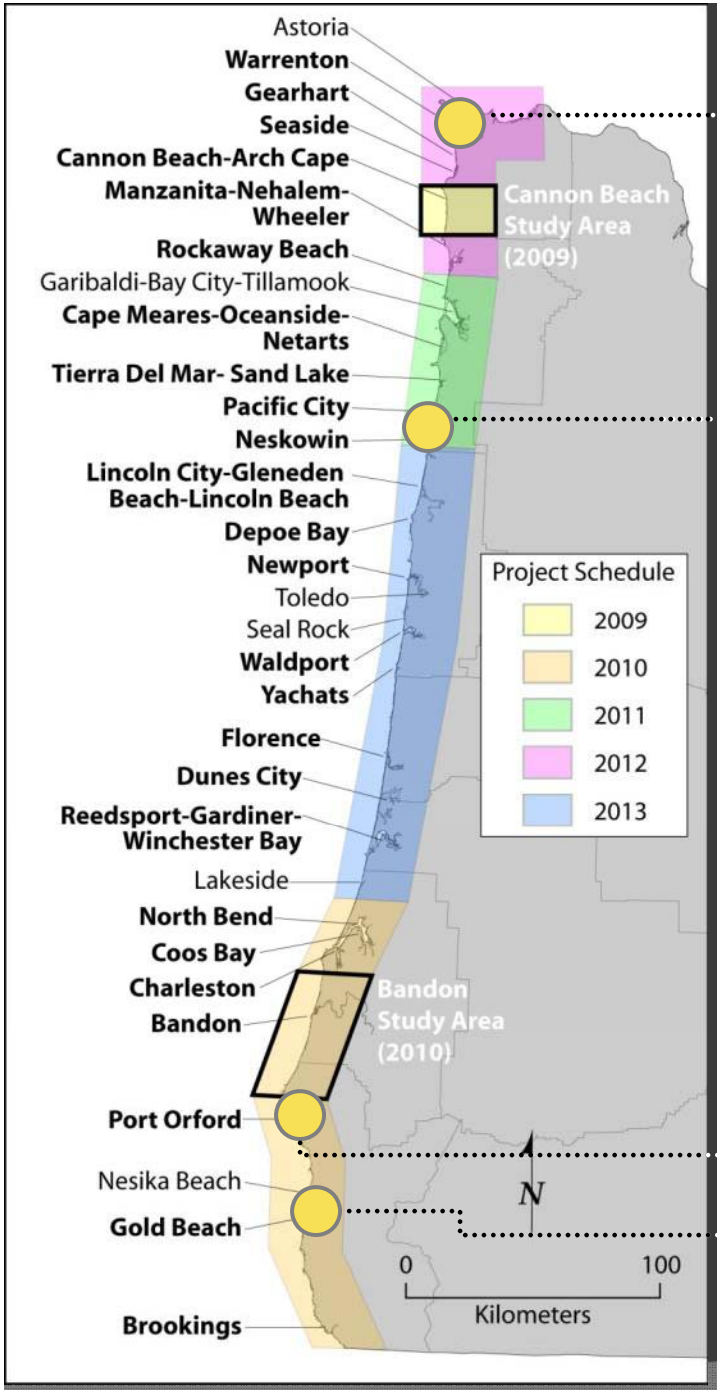


# Oregon FY10 NTHMP Grant Accomplishments

## Oregon's *TsunamiReady, TsunamiPrepared* Program

- Community organizers hired for 7 communities
- 2-day training workshop for community organizers
- Workshops with sheriffs, police and fire officials
- Town hall meetings in 3 communities
- Brookings / Harbor initiating preparedness program
- Training HAM radio operators in Seaside & Gearhart
- Gold Beach High School seniors go door-to-door
- Map Your Neighborhood training at Neskowin Fire Hall
- Pre-outreach surveys

# Community Outreach (FY 10)



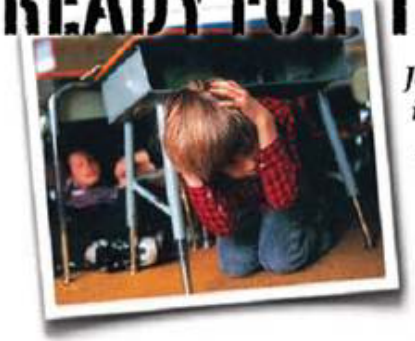
- North Coast
  - Warrenton
  - Astoria
- Central Coast
  - Pacific City
  - Neskowin
- South Coast
  - Port Orford
  - Nesika Beach
  - Gold Beach

# South Coast Townhall Meetings

# TONIGHT!

**January 13 – Gold Beach, 6:00 PM**
**Showcase Building, County Fairgrounds**

## READY FOR THE BIG ONE'?



*Join your friends and neighbors in Brookings, Gold Beach and Port Orford to learn more about tsunamis, earthquakes and other hazards at the Oregon Coast and find out how to get prepared for just about anything!*

*In addition to state and local emergency preparedness experts and the Red Cross, there will be a free raffle of emergency kits and radios and other goodies, refreshments and a chance to learn about Community Emergency Response Team (CERT) training and the innovative Map Your Neighborhood program on emergency preparedness.*

## FREE RAFFLE & MUNCHIES!

*Sponsored by: Curry County Sheriff's Dept. and Emergency Services, the Cities of Brookings, Port Orford and Gold Beach, Oregon Red Cross, Oregon Emergency Management, Oregon Department of Geology and National Weather Service.*

*Call Dave Lacey at (541) 373-0487 for more information and how you or your group can participate.*

Port Orford

Brookings-Harbor

# Oregon FY10 NTHMP Grant

## Issues

- Contracting issues have delayed Tillamook modeling
- Hiring community organizers has proved difficult and time consuming

## Resolutions

- Contract negotiations with OHSU underway
- Community organizers hired as DOGAMI temporary employees

# Oregon FY11 Project Plan

Objective 1: Mapping & Modeling – Aug. 1, 2011 to July 31, 2012

| Task | NTHMP Performance Metrics Supported | Requested Funds |
|---|---|---|
| 1.1 Compile tsunami deposits data, northern Oregon coast | *Produce inundation maps that meet NTHMP guidelines by 2012* | **$36,843** |
| 1.2 Complete northern Oregon tsunami inundation map | *Complete inundation maps for all threatened communities in Oregon by 2013* | **$331,584** |
| | **Total Requested for Objective 1:** | **$368,427** |

# Oregon FY11 Project Plan

Objective 2: Mitigation and Education – Aug. 1, 2011 to July 31, 2012

| Task | NTHMP Performance Metrics Supported | Requested Funds |
|---|---|---|
| 2.1 Tsunami evacuation maps for 7 communities, Clatsop County | *Increase the number of tsunami evacuation maps by 10% annually* | **$72,422** |
| 2.2 Update online tsunami evacuation map | *Increase the percentage of NTHMP products available on the web to 90% by 2012* | **$15,519** |
| 2.3 Update Tsunami Information Clearing-house (online) | *Increase the percentage of NTHMP products available on the web to 90% by 2012;*<br>*Post 100% if tsunami evacuation maps to the NTHMP web repository by 2012* | **$15,519** |
| | **Total Requested for Objective 2:** | **$103,460** |

# Oregon FY11 Project Plan

Objective 3: *TsunamiReady* Support – Aug. 1, 2011 to July 31, 2012

| Task | NTHMP Performance Metrics Supported | Requested Funds |
|---|---|---|
| 3.1 Support Tsunami Outreach Coordinator activities | *Establishing more tsunami resilient communities; Promote a culture of tsunami preparedness and response.* | **$96,896** |
| 3.2 Help 3 communities meet *TsunamiReady* guidelines | *Increase the number of recognized TsunamiReady communities to 105 in 2013; Annually increase local warning reception capabilities by 10%, based on the baseline established by 2010.* | **$17,658** |
| 3.3 Disseminate online education information to communities | *Explore the feasibility of integrating tsunami information into K-12 education; Facilitate educational events.* | **$16,599** |
| 3.4 Support community organizers for 3 areas | *Establishing more tsunami resilient communities; Promote a culture of tsunami preparedness and response.* | **$117,720** |

# Oregon FY11 Project Plan

Objective 3: *TsunamiReady* Support (*continued*)

| Task | NTHMP Performance Metrics Supported | Requested Funds |
|---|---|---|
| 3.5 Coordinate the 2011 Tsunami Road Show | *Establishing more tsunami resilient communities; Promote a culture of tsunami preparedness and response.* | $5,886 |
| | **Total Requested for Objective 3:** | **$254,759** |

**TOTAL REQUESTED FOR FY2011: $726,645**
