

NTHMP Mitigation & Education Subcommittee Webinar  
August 16, 2016 12:00 p.m. PDT  
Meeting Minutes

Attendees

Jon Allen (DOGAMI)

Dan Belanger (Alaska Division of Homeland Security and Emergency Management)

Maximilian Dixon (Washington Emergency Management Division)

Marie Eble (NOAA/PMEL)

Edward Fratto, NESEC

Gala Gulacsik, FEMA Region X

Juan Horillo

Victor Huerfano

Kieran Isadore

Russell Jackson

Laura Kong (NOAA/NWS/International Tsunami Information Center)

Rocky Lopes (NOAA/NWS/HQ)

Jeff Lorens (NOAA/NWS/Western Region)

Manuel Lugo (Washington Emergency Management Division)

Kevin Miller, Cal OES

Christa Von Hillebrandt (NOAA/NWS/Caribbean Tsunami Warning Program)

Christa Rabenold (NOAA/NWS/HQ)

Kevin Richards (HI-EMA)

Chayne Sparagowski (Coastal Bend Council of Governments, Texas)

James Waddell (NOAA/NTWC)

Tim Walsh, WA DNR

Rick Wilson, CGS

Walt Zaleski (NOAA/NWS/Southern Region)

Gala Gulacsik reviewed the currently populated “To Dos” on the NTHMP MES Basecamp website. The group informed the revision and addition of the existing list. The updated list can be found in the [Basecamp To-do list section](#). Members asked for clarification on the following items:

- "Create template" under Evacuation Modeling – This was populated as a result of the MES Summer Meeting. Comment by Nate Wood is needed.
- Workshop session Post-NTHMP Annual meeting (consider 1-hr during NTHMP Annual) under Evacuation Modeling – This has been revised since the MES Summer Meeting. Jon Allen advised against a full workshop session at the NTHMP Annual Meeting. This needs to be discussed during agenda development.
- “MMS review of inundation modeling and mapping documents” was added to the MES/MMS Guidelines To-do list. It was assigned to Dmitry Nicolsky and Marie Eble. Marie will reach out to Dmitry to explain the task as he was not present at the time.

Kevin Miller opened the topic of MES input to the NTHMP Strategic Plan. The following approaches were posed to the group:

- Repeat past process. Walk through the existing plan over the phone to re-write.
- Address identified issues (e.g. appendix)
- Start fresh with and new strategic planning tools and leading toward a facilitator redraft objectives, goals, etc.

Rocky Lopes supported the review of existing documentation (strategic plan, accomplishments, etc.) to prepare prior to the NTHMP Annual Meeting. Kevin Miller will develop list of past MES accomplishments for review using the document sources indicated on this task and post it to Basecamp. Rick Wilson suggested the review of the NTHMP section of the Tsunami Warning Education and Research Act. Rick will share a document describing the NTHMP component of TWERA.
