

National Tsunami Hazard Mitigation Program

Warning Coordination Subcommittee

Annual Meeting Notes

November 17, 2022

I. Hazard Simplification Project

A. Review of WCS Recommendation Submitted to Coordinating Committee for Consideration and Recommendation to NWS/NOAA

- Recommendation based on WCS discussion during the 2022 NTHMP Annual Meeting held in July 2022 and subsequent vote held in August 2022.
- WCS Membership discussion – no requests for changes to the August 2022 vote requested.
- WCS sent the recommendation to the Coordinating Committee for discussion and recommendation to NWS/NOAA

II. WCS Agenda – 2023 NTHMP Winter Meeting

- WCS discussed potential topics for discussion during the 2023 NTHMP Winter Meeting scheduled for Jan 23-27, 2023 in Palm Springs, CA. Topics discussed include:
  - WCS Work Plan Update
  - NTWC/PTWC “Evaluating” vs. “Watch” bulletins
  - Poster Session (after discussion, this was removed from consideration)
  - Request for MMS Support on Emergency Management requests for NWS support including: Breakpoints, Special Procedure Areas, WEA messaging, etc.
  - Washington Deep Dive including: Layout Plan (input, details, schedule), Strategy, Template, Sharing Alert Report/Document, Changes/Gaps in Alert & Warning, and Who Should be Included for each NTHMP Partner State/Territory
  - Tonga Incident Discussion – 1-year Follow-up presentation from each WC including: new protocols
  - Tsunami.Gov Website Updates?
- WCS Co-Chairs will draft the agenda and distribute to the Membership for review prior to the 2023 NTHMP Winter meeting.

III. Next Meeting

NTHMP Winter Meeting – January 2023 in Palm Springs.
