

Tsunami Modeling and Mapping: Guidelines and Best Practices

The document you are looking for *Guidelines and Best Practices for Tsunami Evacuation Mapping* has been retitled and reformatted as part of the “Tsunami Modeling and Mapping: Guidelines and Best Practices” series in September 2016.

The new title is *Tsunami Evacuation Maps*.

Note: The section titled “Recommended Guidelines” has been removed since it originated from and is also included in *Tsunami Inundation Determination for Non-Modeled Regions*. A reference back to this resource has been added.

All the documents in the “Tsunami Modeling and Mapping: Guidelines and Best Practices” series are available on the NTHMP website at <http://nws.weather.gov/nthmp/publications.html>. The series consists of:

- Part I: *Tsunami Inundation Modeling*
- Part II: *Tsunami Inundation Maps*
- Part III: *Tsunami Inundation Determination for Non-Modeled Regions*
- Part IV: *Tsunami Evacuation Maps*
- *Checklist for Tsunami Modeling and Mapping Reports and/or Metadata*
