

Tsunami Modeling and Mapping: Guidelines and Best Practices

The documents you are looking for *Guidelines and Best Practices for Tsunami Inundation Modeling for Evacuation Planning* and *Guidelines and Best Practices for Tsunami Inundation Mapping for Evacuation Planning* have been retitled and reformatted as part of the “Tsunami Modeling and Mapping: Guidelines and Best Practices” series in September 2016.

The new titles are

- *Tsunami Inundation Modeling*
- *Tsunami Inundation Maps*

Note: No significant changes to the content were made to *Tsunami Inundation Modeling*. The evacuation mapping guidelines in *Tsunami Inundation Maps* were removed as they are now included in *Tsunami Evacuation Maps* (formerly *Guidelines and Best Practices for Tsunami Evacuation Mapping*).

All the documents in the “Tsunami Modeling and Mapping: Guidelines and Best Practices” series are available on the NTHMP website at <http://nws.weather.gov/nthmp/publications.html>. The series consists of:

- Part I: *Tsunami Inundation Modeling*
- Part II: *Tsunami Inundation Maps*
- Part III: *Tsunami Inundation Determination for Non-Modeled Regions*
- Part IV: *Tsunami Evacuation Maps*
- *Checklist for Tsunami Modeling and Mapping Reports and/or Metadata*
